JAMAICA'S GOVERNOR INSULTS ADMIRAL EVANS.

## ORDERS FORCES LEAVE

United States Representative Seeking to Aid the Helpless is Requested to Desist.

Kingston, Jamaica, Jan. 21.—Rear Admiral Davis's mission of mercy to stricken Kingston came to an abrupt and painful conclusion Sunday in consequence of Governor Sweetenham's objection to the presence of American sailors engaged in the work of clearing the streets, guarding property and succoring the wounded and sick, culminated in a letter to Admiral Davis, peremptorily requesting him to embark all parties which had been landed. Admiral Davis was greatly shocked and pained, and paid a formal visit to Governor Sweetenham yesterday, informing him that the United States battleships Missouri and Indiana and the gunboat Yankton would sail within the afternoon.

To the Associated Press, Admiral Davis said that immediate compliance with Governor Sweetenham's request was the only course consistent with the dignity of the United States. Friction between the Governor and the Admiral began with the arrival of the American war vessels, when the Governor objected to the firing of a salute in his honor, on the ground that the citizens might mistake it for a new earthquake. He also declared there was no necessity for American aid, and that his Government was fully able to preserve order, attend the wounded and succor the homeless.

Rear Admiral Davis, however, landed parties of blackjacks, who patrolled the streets, cleared the debris, razed ruins, attended many of the wounded and won highest praise from citizens and military officers for excellent work.

### Japs Coming to Texas.

Eagle Pass: Two hundred and eighty Japanese came into the United States Saturday from Japan. They have no particular destination. Many of them are dressed in fragments of Japanese uniforms and many in full uniforms and provided with fine army coats. All have a liberal supply of funds. In getting ready they displayed very little Mexican money, but had considerable Japanese money, clearly showing that they had not been in Mexico very long.

### Prominent Newspaper Man dead.

San Antonio: Frank Grice, owner and manager of the San Antonio Daily Express, died in the Hot Wells Sanatorium, after a lingering illness of several weeks. Mr. Grice was stricken about a year ago and his life was despaired of, but he rallied and was a short time seemingly restored to his usual health. About a month ago he suffered a second attack and had not been able to leave his bed since that time.

### Bad Wreck near Brownwood.

Brownwood: A bad wreck occurred at 7:15 Sunday morning when a train on the Frisco went in the ditch ten miles north of Brownwood and four miles south of the first station, Delaware. The Pullman plant here is second in size of the Pullman plants throughout the country. The fire consumed one of the largest buildings, and only desperate work on the part of the firemen saved the ten acres of shops with their 150 cars.

## DAVIDSON MAKES EXHIBIT.

Governor Sends Message and Davidson Produces Documents.

Austin, Tex., Jan. 25.—The main event in the Legislature yesterday was the appearance in the House of Attorney General Davidson with the documents in his possession which are said to show relations between Senator Bailey and H. Clay Pierce, the Waters-Pierce Oil Company and the Standard Oil Company. The House did not inspect the original documents. The Attorney General left on file with the House copies of such documents, some of them being photographs, and the members are to go to the Attorney General's office and inspect the originals any time they see fit. The matter was left in this shape after a long debate as to what course the House should pursue.

Afternoon the House heard the message of Governor Campbell with an evident show of interest. During the reading of it the Attorney General was announced. After the usual salutations and pronouncements, Attorney General Davidson and his special assistant, Jewel P. Lightfoot, who did the field work in the case against the Waters-Pierce Oil Company, came slowly down the aisle, the first bearing a manuscript and the second two books. They went to the chief clerk's desk, took seats, until the reading of the Governor's message was completed. The Speaker formally recognized the presence of the Attorney General and Attorney General Davidson announced that in compliance with the order of the House he begged leave to submit a written response to the resolution passed Tuesday. The clerk then read the Attorney General's reply, profound silence being maintained during the time.

### Erathites Moved to Palo Pinto.

Mineral Wells: The county surveyors that are now out surveying the line between Palo Pinto, Erath, and Eastland counties have so far gone nearly to the southeast corner of this county. They survey through Thurbur, dividing that place and leaving the Catholic Church, the store and tank and perhaps the largest part of the town in Palo Pinto County. This adds considerable taxable values to Palo Pinto County that Erath has been enjoying heretofore to the extent of about \$1,000,000.

### Dogs Mutilate a Boy.

Sherman: The ten-year-old son of Oscar Cherry near Bells was nearly killed by dogs. The dogs had treed a rabbit and the boy attempted to help them and was attacked. ### Loved Well, but Not Wisely.

Steuensburg, Ohio: Sheriff Voorhees sent a telegram to the sheriff of Clark County, at Springfield, Ohio, to take Frederick C. Fairbanks, son of Vice-President Fairbanks, under arrest. He is under indictment by the grand jury for perjury connecting him with procuring a license to marry Helen Scott, daughter of the millionaire iron master, James Scott, of Pittsburgh.

### Barn Burners at Work.

Waco: Many barns in the city and some in the country have been burned in the past few weeks, leading to the belief that the organization known as the "Barn Burners" has again commenced operations. Several boys got to burning barns here a few years ago, and were finally arrested. Officers believe they are at it once more and are keeping a sharp lookout for them.

## MR. SHAW SAYS NO

NO NEW SUBTREASURY WILL BE CREATED.

## MATTERS IN GOOD SHAPE

All the Flur about Southeastern and Southwestern Subtreasuries Goes Up in the Air.

Washington, Jan. 22.—Mr. Shaw, who is to be Secretary of the Treasury until March 4, says there is no likelihood that a subtreasury will be established in the Southwest soon. Mr. Sheppard, contemplating the introduction of a bill for the location of the proposed subtreasury in his district, inquired of the Secretary what was the prospect of having one established anywhere in Texas and got the reply stated.

Mr. Shaw also volunteered the information that the Southeastern States would also suffer disappointment in this respect. A bill has been introduced in the House by Senator Culberson, denying the right of the mails to those engaged in speculating in cotton, and forbidding telegraph companies to transmit information used for this purpose. The bill is one drawn by Mr. Burleson to stop speculation in cotton futures. Of course, so far as it applies to telegraph companies, it applies only to interstate messages.

It was said at the Postoffice Department yesterday afternoon that Mr. Livingston's application for a fraud ring against the New York Cotton Exchange would not be considered out of its turn. It was intimated that this application will not be reached soon.

The rivers and harbors bill will not be reported before Wednesday and possibly not until Thursday, and all the Texas items have been agreed to except the proposition to extend the Galveston channel up past the Rock Island property. The halt here is due to a matter of detail. Mr. Burgess declares there is an absolute interdiction against giving out information as to the items of the bill, and therefore it will probably not be possible to state authoritatively what disposition has been made of Texas projects until the bill is reported.

### Two Men Instantly Killed by Train.

Fort Worth: G. A. Ardrey, aged 65, of Fort Worth, and his brother-in-law, Tom Wingo, aged about forty-five, of Argyle, were run down and instantly killed by a Texas and Pacific freight train at Arlington at 10 o'clock Sunday morning. Both men were walking down the track when their attention was attracted by a freight train which was stalled and was making an effort to move out of the yards. They stopped to watch the train and in so doing they did not notice another freight train which was backing towards them. It struck both of them and mangled their bodies beyond recognition.

### Sanford Disaster Still a Mystery.

Terre Haute, Ind.: A revised list of the dead and injured from the wreck of the Big Four passenger train No. 8, at Sanford Saturday night shows twenty-eight dead and thirty-two injured. Of the dead, eighteen have been identified. Railroad officials and power experts are at the scene, investigating the cause of the disaster. The explosion, is, as yet, as much of a mystery as ever.

Plans have been made and options have been secured on a plot of ground near the Santa Fe passenger station in Cleburne, on which is to be erected a fifty-room modern hotel building. It is understood that the Harvey people are back of the project.

Gray Bus, while working with a stump puller near Brownwood, received injuries which may prove fatal.

Andy Bell, a negro, was struck by a Kansas City Southern train and instantly killed at the Watts Crossing Sunday. His back was broken and he had both of his legs crushed.

Never in the history of the city has Chicago suffered from such a scourge of scarlet fever and diphtheria as she is now undergoing.

The Gulf Pipe Line Company, which is surveying an air-line route from Tulsa to Beaumont, has secured an option on 100 acres of land at Powderly, twelve miles north of Paris, which will be made a station, it being half-way between Tulsa and Beaumont.

It is said that the extension of the Missouri, Oklahoma and Gulf Railroad to Denison, Texas, is now assured. There are two grading camps pitched four and seven miles from Austin, and the work is being pushed rapidly.

## Joe. W. Bailey Re-Elected

The Man From Gainesville Lands the Plum, Receiving 19 Votes in Senate and 89 in House.

Austin, Jan. 23.—After spending several hours in threshing over again the old straw, the vote of the House and Senate was taken yesterday for United States Senator. After the vote had been cast in the Senate the President announced:

"There are thirty members of the Senate and out of the number Senator J. W. Bailey has received 19. Gen. W. L. Cabell 1, Hon. A. W. Terrell 1, and ex-Senator Horace Chilton 1 vote, and there were present and not voting seven Senators and one absent and excused. Under the Constitution, it requires a majority of all members of the Senate to elect a United States Senator. Senator Bailey having received 19 votes, the Chair declares him to be duly and legally elected the Constitutional Senator from the State of Texas."

Scenes in the House were lively, as they had been during the whole session. At 2:45 the roll was called to be called.

SENATOR JOSEPH WELDON BAILEY OF TEXAS.

The result was announced as 90 for Bailey, 35 scattering, 7 present but not voting and 1 absent. The first session, which was held behind closed doors, was presided over by President Charles S. Barrett, of Atwater, Georgia.

When the legislative bill was taken up Senator Gallinger, who had given notice of an amendment increasing the salaries of Senators and members of the House, remarked that because of the initiation of some Senators to make a point of order against the amendment, he should not present it, but rely on separate legislation to accomplish this purpose.

The notice given by Senator Gallinger is taken as an indication that no action to raise congressional salaries will be successful at the present session. The Senate Committee's amendment striking out the House provision increasing the salaries of the Vice President, Speaker of the House, and Cabinet members was agreed to.

There will be an extra session of the senate immediately after the adjournment of the present congress for the purpose of dealing with a new treaty with Santo Domingo.

Interrupts Telegraph Service and Ties Up Cars.

Chicago, Ill.—The storm that has been central in the southwest for a number of days struck Chicago Wednesday night, beginning with sleet and turning later to snow and rain. Telegraphic service south and west of Chicago was interrupted part of the night.

The sleet caused delays on the elevated roads, but the surface lines experienced but little trouble because of the "ice cutters" on the trolley. The heavens were lighted by brilliant flashes of electricity as trains on the elevated roads struggled against the sleet. A train consisting of ice formed over the third rail and the flashes resulted. Only slow progress was made.
